Founder/Designer

@ Great Job

May 2013 - Current

Great Job is a design firm that specializes in research and prototyping. We use the scientific method to solve design problems by researching, testing, and designing with real users.

Adjunct Instructor

@ Startup Institute

November 2013 - Current

Startup Institute is a career accelerator. I am an instructor and mentor for their Product and Design track. I teach workshops on design science and prototyping, and also lead a 24 hour hackathon for students.

Operations Manager

@ ICON Technologies

December 2012 - May 2013

ICON was a technology development start-up that focused on bringing new ideas to life. I implemented new operations and project management procedures, managed software projects, and worked with clients in a collaborative environment.

Product Manager

@ MentorMob

October 2010 - December 2012

MentorMob is an education platform that deals with crowdsourcing existing knowledge. I worked hands-on with the founders, product development, and marketing teams to ensure that we all moved forward in a unified direction.
